

Driven by the desire to
**IMPROVE THE LIVES OF
EVERYDAY MONTANANS**

ROB QUIST: PUTTING MONTANANS FIRST

He believes you shouldn't have to be a millionaire to hunt, fish and hike in our great outdoors, get a good education, or be able to support your family.

MONTANA VALUES

Raised on a ranch north of Cut Bank, Montana, Rob understands:

- the joy of hard work, the importance of family and caring for the community;
- agriculture is the backbone of our economy and farmers and ranchers deserve competitive prices in every trade agreement;
- the importance of working with Montana's Tribes and preserving the right of self-determination for all Native Peoples.

Rob believes education is the bedrock of our children's future. He will:

- strengthen our public schools, not privatize them;
- work to make higher education more affordable by streamlining the student loan process, capping interest rates for student loans, and creating more opportunities for loan forgiveness in return for community service;
- preserve the arts in our education system.

As a lifelong outdoorsman, Rob:

- supports Second Amendment rights for law-abiding Montanans to own and use guns responsibly;
- opposes any attempts to transfer Montana's public lands to private hands;
- will defend our public lands and stream access rights.

As a small business owner, Rob will advocate for:

- investment in infrastructure and manufacturing;
- tax reform, boosting small business and closing tax loopholes for corporations that ship American jobs overseas;
- building up Montana's high tech industry;
- developing a comprehensive energy plan that utilizes Montana's natural resources while exploring new energy technologies;
- developing Montana timber jobs, including utilizing innovative ideas to harvest beetle kill areas.

Rob believes in caring for each other. He will:

- work to assure access to quality, affordable health care for all Montanans;
- stand up to special interests attempting to dismantle the Affordable Care Act;
- protect Social Security and Medicare;
- work to streamline the job process for veterans and incentivize businesses to hire veterans upon their return from service.

Rob believes in privacy and equality. He will:

- defend the right of women to make their own healthcare decisions;
- stand against the defunding of Planned Parenthood;
- support equal pay for equal work;
- work to pass the Paycheck Fairness Act and support initiatives that close the wage gap;
- defend the right of everyone to love and marry whomever they choose.
